express sincere appreciation to our sponsors:

for sponsoring this year's A.P. Westfall Seminar

and

The Greater Houston Dental Society
is a recognized provider of
Continuing Education Courses
through the ADA CERP.

Dr. James Hanigan
UTOAA President

On behalf of the UT Orthodontic Alumni Association board I welcome you to the 57th annual A.P. Westfall Seminar. The A.P. Westfall meeting has always been a great time to reconnect with fellow classmates and faculty, as well as a time for our families to get together and renew old friendships. This year, though, is rather unique. We will have a joint meeting with the Baylor Orthodontic Alumni Association, so I hope you will also get the opportunity to mingle with our Baylor peers and make a few new connections.

The Board has worked hard this year to provide everything you could expect from the alumni association meeting. The JW Marriott San Antonio Hill Country Resort and Spa offers an amazing array of family resort experiences. Our executive director Adriana Cavender has been working all year to make this meeting a success. This year's meeting promises to be extraordinary since we are combining our efforts with the Baylor College of Dentistry's Alumni Association, our excellent speaker and the sensational location. Dr. Clark Colville will be the guest speaker and the title of his talk is "Clear aligners – the present and the future" and "Sagittal first orthodontic treatment."

Dr. Robert Bourquein is once again chairing the golf tournament on Saturday. He has reserved one of the TPC San Antonio's magnificent pair of 18-hole championship golf courses designed by golf legends Greg Norman and Pete Dye at TPC San Antonio. The property encompasses 2,800 acres with luxury golf resort amenities. For those not playing golf, enjoy ultimate outdoor fun at River Bluff Water Experience, the nine-acre San Antonio water park with a 650-foot rapid-river ride and a 1,100-foot lazy river. Retreat to Lantana Spa for soothing indigenous-inspired treatments. When you're ready to sample exciting cuisine, you will find many options, such as our upscale steakhouse restaurant and High Velocity, with its 120-foot-long high-definition video walls. The resort also offers easy access to Texas Hill Country wineries, Natural Bridge Caverns and Six Flags Fiesta Texas. The chairman's dinner on Friday evening will gather us for fellowship, good food and entertainment.

It has been my privilege to serve on the UT Alumni board these past four years and as its president this past year. Orthodontics has been very good to us all and without dedicated individuals like Drs. Garrett, Mayer, Colville and English The University of Texas Orthodontic Department would not have such an exceptional reputation. Without individuals like Dr. Winkelmann our Alumni would not have such a magnificent foundation. So, to all those who tirelessly work to better our program thank you. I am also encouraged by seeing so many younger orthodontists step into leadership positions within our Alumni Association, the TOF as well as faculty positions within the department. I will exit the board knowing our department as well as our Association is in great hands and that our future is bright.

Thank you again and I look forward to seeing you at the JW Marriott in San Antonio.

Sincerely,

Jim Hanigan, DDS, MS
UTOAA President

Dr. Jeryl D. English
Department Chair

Greetings! We are extremely privileged this year to hold our annual A.P. Westfall Seminar in beautiful San Antonio, TX. I know that Dr. Jim Hanigan and the UTOAA board have put forth an outstanding effort to ensure a great meeting, both educationally and socially. I look forward to chatting and spending productive time with all of you. I am excited to be able to listen to Dr. Clark Colville as our speaker this year.

As a past President of the American Board of Orthodontics, I am elated to report that all graduates of the 2016 class have become board certified with the ICE examination. Two of our 2017 graduates took the ABO clinical exam in September 2017 with both passing and five more taking the exam in February 2018!! Our department is exceptional and board certification validates this.

Every day I feel profoundly grateful for having been given the wonderful opportunity to be the chair. I feel that together, you and I and the faculty and staff of this great school have accomplished something to be deeply proud of. Challenges remain; however, I am bringing in more young board certified faculty for one to two days per month to get them interested in teaching. We need to plan for the future. I am also excited that we have recruited Dr. Helder Jacob as he is teaching the residents biomechanics. Additionally, Dr. Lacey Harris is now our Undergraduate Program Director.

We are so grateful to **TOF** and their continued support of the residency program. In the past, success has been primarily due to a partnership with the Orthodontic Department and **The Orthodontic Foundation**. We have accomplished much together. This year we need to continue to pledge to **The Orthodontic Foundation** – it is our future! I am deeply honored and grateful to those who have pledged. We thank you for your generous and kind support to **TOF**. We appreciate the many kind things you do for the school and the profession.

It truly has been an honor and privilege to serve as Chairman of the Department of Orthodontics. I look forward to our future accomplishments. This year's alumni meeting promises to be memorable and exciting! Thank you for coming and participating.

Jeryl D. English, DDS, MS
Fred & Dianne Garrett Endowed Chair
Chairman and Graduate Program Director

**2017 Yellen-Schoverling
Award Recipient
Dr. Randy Ellis**

I grew up in Pearland, TX (Houston area), where I now practice. This is full circle, as I left for a long period of time to pursue my education. I came back to Pearland as it is a great area to live and work. In 1983, I graduated from the University of Notre Dame, where I received a Bachelor of Science degree, and attended on a football scholarship. I then attended the University of Texas Health Science Center at Houston (UT Health) and earned a Doctorate of Dental Surgery from the School of Dentistry. I then completed a two year residency in Pediatric Dentistry. During my residency program, I also had the unique opportunity to work for a short period of time in Sderot, Israel, where I worked in rural dental clinics.

I returned to Pearland, Texas and practiced pediatric dentistry for seven years, then returned to UT Health to specialize in orthodontics. I received my Certificate of Orthodontics in June 1998. I have been a Board Certified orthodontist for 10 years.

I am a member of the American Association of Orthodontists, Southwestern Society of Orthodontists, Texas Association of Orthodontists and The University of Texas Orthodontist Alumni Association. I have served as a faculty member of UT Health for over 20 years, where I am an Associate Clinical Professor. In addition to teaching in the School of Dentistry, Department of Orthodontics, I am the orthodontist on The University of Texas Cleft Palate Team. My work with the children that we treat through the Cleft Palate Team is personally rewarding.

When away from the office, I enjoy spending time with my family. My wife Selena and I have three young adult children and a new son-in-law this year. I enjoy the great outdoors, and especially hunting and fishing.

As the 2017 Yellen-Schoverling Award Recipient, I am honored to be a part of this orthodontic family. Serving and shaping the profession before me, my friends and colleagues Drs. Fred Garrett, Don Mayer, Jerry English, Bud Belanger and Bonham Magness have set the standard high. We truly have one of the best clinical teaching programs in the country.

The A.P. Westfall seminar is always an outstanding meeting. Besides its content and speakers, it is a great place to gather and reunite with friends and colleagues.

2018 GUEST SPEAKER

Clark Colville, DDS, MS

Dr. Clark D. Colville is a 1993 graduate from the orthodontic program of the University of Texas Health Science Center at Houston and maintains private practices in Seguin and San Marcos, Texas. Dr. Colville is a Diplomate of the American Board of Orthodontics and has been affiliated with Align Technology since 1998. Dr. Colville continues to participate in clinical trials, is a consultant member of the Global Scientific Advisory Board and speaks frequently throughout the US and internationally on Invisalign branded clear aligner treatment. Similarly, Dr. Colville is also a member of the Henry Schein Orthodontic Inner Circle where he collaborates with leading orthodontists from around the US to develop the latest technological advances in the orthodontic industry.

In addition to his private practice, Dr. Colville is a clinical associate professor at the orthodontic program in Houston where he teaches a 2 year didactic course on Invisalign treatment and is the attending faculty for patients treated with Invisalign branded clear aligners.

Dr. Colville is a past President of the Southwestern Society of Orthodontists, a past president of the Texas Association of Orthodontists, and has served on numerous Council and Task-Force positions in the American Association of Orthodontists. He is currently the AAOPAC representative for the SWSO and the Co-chair of the AAO Future Think Tank.

Course Description

Friday, June 14, 2018 – Sunday, June 16, 2018

Dr. Clark Colville

Presents

Clear aligners – the present and the future

Abstract

This course covers diagnosis and treatment planning and a detailed review the 3D virtual treatment planning process using the proprietary ClinCheck™ software. The course explains in detail the defaults and parameters of Treat software and provides a comprehensive workflow for modifying ClinCheck™ 3D treatment plans, including staging of modified aligner delivery protocols and finishing procedures.

3D printing will change the way we will deliver clear aligner treatment in the future. New software has been developed that makes virtual tooth movement less complicated. Limited treatment and hybrid treatment combining these technologies will continue to expand the number of patients benefitting from clear aligner treatment.

The goals of this course are:

1. Explain the internal defaults in Treat software, and the numerous SmartForce™ innovations in the Invisalign System.
2. Present a step by step process to critically review and modify ClinCheck 3D digital treatment plans.
3. Explain the steps required to provide comprehensive treatment in a manner that provides the best strategy to achieve established treatment goals.
4. Demonstrate scenarios where 3D printing can enhance treatment outcomes and practice profitability.

Sagittal first orthodontic treatment

Abstract

Sagittal first treatment is a new approach to comprehensive treatment planning with the goal of treating to excellent clinical results in as little time as possible. This approach addresses one of our patient's primary concerns – how long will treatment last.

The goals of this course are:

1. Describe the Sagittal First philosophy emphasizing the use of the Motion appliance for class II and class II dental malocclusion.
2. Explain how to sequence treatment for maximum efficiency – where the goal is to complete fixed appliance therapy in 12 months or less.

2018 Seminar Program

Friday, June 14th

7:30 – 8:30 a.m.	Registration and Continental Breakfast
8:30 – 8:45 a.m.	President's Welcome Introduction
8:45 – 10:15 a.m.	Lecture – Dr. Clark Colville
10:15 – 10:30 a.m.	Break
10:30 – 12:00 a.m.	Lecture – Dr. Clark Colville
12:00 – 1:30 p.m.	Alumni Business Luncheon
1:30 – 6:00 p.m.	Group Activities (on your own/family)
6:30 – 9:30 p.m.	Chairman's Reception Dinner and Show

Saturday, June 15th

7:30 – 8:30 a.m.	Faculty meeting
7:30 – 8:30 a.m.	Continental Breakfast and Informal Roundtable Discussion with Dr. Colville
8:30 – 10:30 a.m.	Lecture – Dr. Clark Colville
10:30 – 10:45 a.m.	Break
10:45 – 12:00 noon	Lecture – Dr. Clark Colville
12:00 – 6:00 p.m.	Group Activities (on your own/family)
12:00 – 6:00 p.m.	Golf Tournament (Box Lunch included)

Sunday, June 16th

7:30 – 8:30 a.m.	Continental Breakfast
8:30 – 8:45 a.m.	Devotional
8:45 – 9:00 a.m.	Presentation of trophies for Golf Tournament
9:00 – 10:30 a.m.	Lecture – Dr. Clark Colville
10:30 to 10:45 am	Coffee Break
10:45 to 12:00 noon	Lecture – Dr. Clark Colville
